APA-IT Informations Technologie GmbH is a wholly-owned subsidiary of APA – Austria Press Agency eG, Laimgrubengasse, 10, 1060 Vienna. APA – Austria Press Agency is engaged in the operation of a news agency, particularly in the gathering, processing and dissemination of information in word, image, video and sound, the provision of a basic news service as well as the operation and provision of information services in electronic and printed form.

Business Objective:

The business objective of APA-IT Informations Technologie GmbH is the development and operation of IT solutions for information and knowledge management as well as the provision of the infrastructure required for this. APA-IT's core competencies lie in the areas of serverhosting, application development, internet solutions and office outsourcing.

General Orientation:

The particular marks of quality of APA-IT applications include security, 24x7 availability and capacities for the management of peak loads due to one of the most powerful data centres in Austria.
