SERVERHOSTING

PROFESSIONALLY HOSTED SERVERS ARE INDISPENSABLE FOR SUCCESSFUL COMPANIES. STEADILY GROWING DATA TRANSPORT, HIGH SECURITY REQUIREMENTS AND COMPLEX APPLICATIONS MAKE CONSIDERABLE DEMANDS ON THE SERVER LANDSCAPE. IT IS ALL THE MORE IMPORTANT TO ENSURE SMOOTH OPERATION AND CONTINUOUS AVAILABILITY.

HOW DOES IT WORK?

You can purchase or lease a server from APA-IT. The servers are regularly maintained, serviced and updated so even after years no technological gaps arise. The highest availability is guaranteed by two redundant processing centres. The function of the servers is monitored 24x7. In the event of malfunctions qualified employees are on the spot around the clock.

APA-IT HAS BEEN AT THIS A LONG TIME.

Serverhosting is one of APA-IT's core businesses as a subsidiary of APA – Austria Press Agency and operator of the largest media and professional database in Austria. The experts at APA-IT know what is necessary for the servers to be available around the clock, even at peak capacities. A qualified 24x7 support team monitors the smooth operation even on nights and weekends. In addition to three standard services (Professional Hosting, Professional Hosting PLUS and Professional Hosting ENTERPRISE), APA-IT also offers customized solutions. So you don't pay for what you don't need. Numerous long-term customers including Die Presse, ORF and Kurier appreciate this service.
